LETTER OF RECOMMENDATION

Timothy Bryan Jr.-Vice President  
T.P. Bryan Electric Co. Inc.  
Office - 609-393-8325

It is my pleasure to write this letter of recommendation on behalf of Tim Bryan. Tim was the General Contractor for Mercedes-Benz USA's headquarter campus project to install 37 electric vehicle chargers at Montvale, NJ. I had no prior relationship with Bryan Electric, who was subcontracted by Bosch/SPX, the equipment supplier. The scope of the project involved a Design Build process to install 37 permanent vehicle charging stations located at 3 different addresses.

I give Bryan Electric top marks in the following areas:

- 1. Quality**-The quality of work done was excellent. Tim used subcontractors who were knowledgeable, skilled, and competent in their respective trades. They were conscientious about following the project specifications.
- 2. Performance**- The workmen whom Tim utilized were professional, reliable, courteous, and respectful of the Owner's property and staff.
- 3. Project management / coordination**-Tim was knowledgeable about all aspects of our project, and was able to plan, coordinate and manage the activities of different work crews effectively. He remained closely involved in overseeing the project from start to finish. His excellent attention to detail, strong organizational skills and commitment to follow-through were evident throughout the process. Tim's familiarity with building codes and dealing with the local authorities also facilitated a smooth process when it came to building permits and inspection.
- 4. Communication**-Tim kept our team closely informed of work crew schedules, delivery dates, and projected completion dates of different phases of our project.
- 5. Flexibility with unexpected developments.** When unforeseen problems surfaced, Tim worked diligently with our team to identify solutions. He utilized resources effectively and creatively to implement solutions.

I would not hesitate to hire Bryan Electric again.

Sincerely,

Darius Oggioni
