

Delaware Clean Transportation Incentive Program

Electric Vehicle Charging Station Rebates

Charging your electric vehicle is easy and affordable. Get up to 90% back on the cost of a new charging station!

Benefits of Installing Charging Stations:

- ◆ Show commitment to environmental sustainability
- ◆ Attract new customers
- ◆ Entice customers to stay longer
- ◆ Provide employees incentive to drive green
- ◆ Attract and retain tenants

A regularly updated map of public charging stations can be found at afdc.energy.gov/stations

How to Apply

1. Download and complete an application from de.gov/cleantransportation. A copy of your driver's license and proof of purchase for the charging station must be included.
2. Complete an online W-9 form at esupplier.erp.delaware.gov
3. Submit your application by email or mail to the address on the back of this brochure.

Who is eligible for a rebate?

- Multi-family dwellings
- Delaware businesses, organizations and non-profits
- State, municipal, and county agencies
- Schools, colleges and universities

Rebates for your electric vehicle purchase or lease are also available! Learn more at de.gov/cleantransportation

Electric Vehicle Charging Station Rebates

The Electric Vehicle Charging Station Rebate Program offers rebates to Delaware businesses, non-profit organizations, state and local governments, fleets and multi-family dwellings for new charging stations.

Rebates apply to the purchase of a Level 2 charging station. Installation, labor and other costs are not eligible.

	Rebate Amount (Max: \$3,500 single port / \$7,000 dual port)		Limit Per Location	
	Commercial	Government & Nonprofit	Commercial	Government & Nonprofit
Public Access	75%	90%	6 Charging Ports	6 Charging Ports
Workplace	75%	90%	6 Charging Ports	6 Charging Ports
Fleet	75%	90%	6 Charging Ports	10 Charging Ports
Multi-Family	90%	90%	10 Charging Ports	10 Charging Ports

Electric Vehicle Charging Is...

Easy

Electric vehicle charging stations provide electricity to electric vehicles through a plug, just like your phone or hairdryer.

Convenient

Charging stations can be located anywhere — home, work, hotels or restaurants.

Your vehicle can be truly zero-emission when charged with solar panels. Learn more about renewable energy grants at:

de.gov/greenenergy

Fast

A Level 2 type charger can charge any electric vehicle in several hours while you work, sleep, or shop.

Affordable

The cost per mile of charging an electric car is cheaper than fueling a conventional gas car.
