

Orange & Rockland Charge Ready for Business Rebates

[The Orange & Rockland \(O&R/RECO\) Commercial EV Charger Ready Program](#) offers incentives to reduce the cost associated with preparing your site for electric vehicle chargers and receiving electric service from O&R. Applications for Level 2 and/or DC fast chargers will be reviewed and approved on a first come, first served basis until funds are exhausted. Reach out to ChargePoint or authorized ChargePoint reseller for support with your application.

O& R Incentive Program	Level 2 port goal	DCFC port goal	Program Incentive: Customer Sided Cost	Program Incentive: Utility Sided Cost	Incentive Cap
Charger Ready: Commercial	413	-	Between 50% and 100% of the makeready customer sided costs, up to \$9,200	Between 50% and 100% of the makeready utility sided costs, up to of \$4,400	Capped at 90% of total project cost
	-	30	Between 50% and 100% of make-ready customer sided costs, up to \$81,000	Between 50% and 100% of make-ready utility sided costs, up to \$2,000.
